EDUCATION

FEB 2014 TO DEC 2018 | Bachelor in Computer Science at UNIVERSIDADE DE SÃO PAULO
(CURRENT) | emphasis on theoretical computer science

EXTRA-CURRICULAR

FEB 2014 Current	ACM-ICPC Contestant <i>Brazilian Champion and World Finalist</i> My team qualified for the 2018 ICPC World Finals by placing first on the brazilian phase. Currently training and taking part on several contests. Using mainly C/C++ and intensifying my studying of Algorithms and Data Structures.
SUMMERS FROM 2016 TO 2018	ACM-ICPC Summer Training Camp at UNICAMP Attended to lectures about algorithms, data structures and competitive programming and took part in several team contests.
FEB 2014 Current	Member of MARATONIME <i>Competitive Programming Study Group</i> Helps on training students interested in competitive programming mainly preparing and teaching lectures. Took part on developing ContestWatcherBot, a Node.js Telegram Bot helps competitive programmers track upcoming and MaratonIME's website.
2015 AND 2016	Hackatons Took part in Facebook Hackathon in 2015 and Facebook-Mastercard Hackathon in 2016

[CODEFORCES](#)
Rating 2102, 11th place in Brazil

[TOPCODER](#)
Rating 1715

WORK

MAY-NOV 2013	Intern Web Developer at TriFORCE SOLUÇÕES DIGITAIS <i>Web Development Company</i> Development of a generic content management framework, used in every website developed by the company. Worked mainly with PHP, SQL, JavaScript and HTML5/CSS3 with two other programmers and a designer. Since it was a multi-project framework, there was a great concern for keeping code clear, organized and modular.
--------------	---

PROGRAMMING LANGUAGES

C/C++	3 years of experience mainly on competitive programming contests and university assignments.
JAVASCRIPT (AND NODE)	work experience at TriForce. 5 years of use in small projects.
PHP	work experience at TriForce.
