languages

portuguese (native)
english (fluent)

programming

C/C++
JavaScript (and Node)
PHP
Ruby (on Rails)
CSS3 & HTML5
Java

education

2014–current	**Universidade de São Paulo**	Bachelor of Computer Science
2011–2013	**Liceu de Artes e Ofícios de São Paulo**	Secondary School
2011–2013	**Liceu de Artes e Ofícios de São Paulo**	Technical School of Multimedia

experience

2013 — **TriForce Soluções Digitais** — Software Development Internship
Took part in the development of web sites for companies and of a generic content managing system which is still in use by the company. Worked mainly with PHP, Javascript and HTML5/CSS3.
Some of the websites I've worked on:
- Gazit Brasil (http://www.gazitbrasil.com.br/)
- Clínica Dra. Márcia Monteiro (http://www.mmdermatologia.com.br/)

2012 — **Independent Web-Development** — Freelancer
I worked as a freelancer web developer for about a year with a colleague. Since it was my first professional experience with programming it was really interesting since I've learned many things about web development, dealing with clients and working in group.
We've developed three commercial web sites during this time, unfortunatenly none of them are still available online.

extracurricular

2014-current — **International Collegiate Programming Contest** — Contestant
I'm currently strongly engaged on practicing for the ACM-ICPC competition and other programming contests.

2009 — **International Statistical Literacy Competition** — Finalist
I was one of the finalists on the First International Statistical Literacy Competition held in Durban, South Africa by the International Statistical Institute (ISI).

interests

algorithms, competitive programming, web development, statistics, math, discovering interesting stuff, creating useful and cool software, music, gaming.
